

DEEKSHITHA R

Bengaluru, Karnataka, India

Phone: +91 86185 04534 | Email: rdeekshitha184@gmail.com | [LinkedIn](#) | [GitHub](#) | [HackerRank](#)

OBJECTIVE

Computer Science undergraduate with hands-on experience in **Machine Learning, NLP, and AI systems**. Skilled in Python, data preprocessing, and building intelligent applications using LLMs and retrieval-based models. Passionate about solving real-world problems using data-driven approaches.

EDUCATION

B.E. Computer Science – R R Institute of Technology, Bengaluru - CGPA: 9.21	2024 – 2026
PUC (PCMB) – Jindal Independent PU College – Percentage- 94.04%	2021 – 2023
SSLC - Scholars Academy English School – Percentage- 98.08%	2020 – 2021

TECHNICAL SKILLS

Machine Learning & AI: Data Preprocessing, Feature Engineering, Supervised Learning, NLP, Embeddings, Vector Search

Libraries & Tools: NumPy, Pandas, Scikit-learn, LangChain, HuggingFace, ChromaDB

Programming: Python, C++, SQL, JavaScript, Java

Frameworks: Django, React.js, TypeScript

Tools: Git, GitHub, VS Code, MySQL

PROJECTS

AI-Based Document Search & Conversational Retrieval System (RAG)

GitHub: <https://github.com/rdeekshitha184-ship-it/RAG-APPLICATION.git>

- Developed an AI-powered retrieval system using **LangChain, HuggingFace embeddings, and ChromaDB**
- Performed **data preprocessing and embedding generation** for semantic search
- Integrated **LLaMA 3** for context-aware response generation
- Developed interactive UI for real-time document querying.

Resume Screening System (ATS-Based)

GitHub: <https://github.com/rdeekshitha184-ship-it/hirewise-ats.git>

- Built an ATS using **Python, Django, and SQLite** for resume parsing and candidate evaluation
- Designed a **rule-based matching system with weighted scoring** for ranking candidates
- Applied **basic NLP techniques** (text preprocessing, keyword extraction) for improved matching.

Offline Knowledge Capsule for Resilient Learning Environments (GyanaHub)

- Built offline-first platform using React & TypeScript
- Designed modular UI and quiz system
- Best Paper Award – AITS DT 2026 National Conference

INTERNSHIPS

Python Development Intern – Cognifyz Technologies | Oct-Nov 2025

- Applied Python programming, data structure, and file handling to develop and debug assigned tasks.

AI & ML Intern- IBM SkillBuild | Jan 2026 – Feb 2026

- Completed **AI/ML internship** focusing on **Python-based model development, data preprocessing, and real-world problem solving**.

AI Intern – Infosys Springboard Virtual Internship 6.0 | Jan 2026 – April 2026

- Developed **AI-based document search and conversational knowledge retrieval system** using **NLP and semantic search** with **LangChain** and vector database.

ACHIEVEMENTS AND CERTIFICATIONS

Best Paper Award – AITS DT 2026 National Conference

Top 20 Finalist – Build for Bengaluru Hackathon (120+ teams)

Participant – UiPath Agentic Hack (Agent-based AI system)

IBM SkillBuild – Artificial Intelligence Fundamentals Certification

Infosys Springboard – NLP & Deep Learning Certifications
